BEAUTY EDITOR'S PICKS

ACTIVE SERUM™ by iS CLINICAL® (iS stands for INNOVATIVE SKINCARE®) is a fast-acting, results-oriented formula that addresses a variety of different skincare concerns at the same time, decreasing the appearance of hyperpigmentation, fine lines, and wrinkles, and smoothing and softening skin texture. It's also great for acne, but because of its botanical ingredients, it doesn't dry out your skin. Westside Aesthetics, 1033 Gayley Ave, Suite 104, LA, 310-443-5273; www.isclinical.com
