

PRODUCT OF THE MONTH

ADVANCE+

SUPER SERUM™ ADVANCE+, **PRO-HEAL™ SERUM ADVANCE+**, **C EYE ADVANCE+** INNOVATIVE SKINCARE has raised the bar once again in vitamin C technology with the new iS CLINICAL ADVANCE+ line. In keeping with our commitment to offer ingredients and formulations that are truly innovative, the ADVANCE+ line features a new, cutting-edge vitamin C (L ascorbic acid) technology along with Copper Tripeptide Growth Factor (in select products) to produce more rapid, pronounced improvements in the skin than ever before. Also available: **C & E SERUM ADVANCE+** and **C-15 SERUM ADVANCE+**

THE SCIENCE OF ADVANCE+

SUPERIOR VITAMIN C TECHNOLOGY

Not all vitamin Cs are created equal! Called the most exciting breakthrough in more than a decade, the superior vitamin C (L ascorbic acid) technology now employed in our remarkable ADVANCE+ formulas has been developed to increase stability and to offer time-released, continuous and steady delivery of vitamin C to the cell, providing a more efficient and effective form of vitamin C. This powerhouse ingredient provides improved collagen production, exceptional antioxidant and UV-photo protection, as well as safe, natural lightening of the skin.

COPPER TRIPEPTIDE GROWTH FACTOR

Copper Tripeptide Growth Factor encourages the synthesis of healthy collagen, which acts to promote healthy dermal restructuring and to heal the pathological effects of aging, wrinkles and stretch marks, resulting in beautiful and healthy skin.

NEW AD!

ADVANCE+

Look for it in Skin Inc, Dermatology Times and THE Aesthetic Guide

iS CLINICAL'S NEW VITAMIN C + COPPER TRIPEPTIDE GROWTH FACTOR

We have, for the first time, successfully combined our stabilized vitamin C with Copper Tripeptide Growth Factor. This previously incompatible combination, found in our new SUPER SERUM ADVANCE+ and C EYE ADVANCE+, brings together a group of the most important elements in collagen synthesis, which works synergistically within our formulations to produce more rapid, pronounced improvements in the skin.

THE WORD...

iS OUT!

iS CLINICAL has received much press coverage lately, both domestically and internationally. iS CLINICAL's POLY-VITAMIN SERUM™ was featured as a product 'Worth A Look' in Dermascope magazine. YOUTH COMPLEX® was highlighted as a Rapid Wrinkle Reducer in New Beauty magazine. In the month of June alone, iS CLINICAL products have been featured in 8 Turkish publications.
